Treating one Railway maund of jaggery as equivalent to three local maunds for purposes of octroi

---

From
The Municipal Council Davangere city
No Sf C 2/51 52 Dt 11 4 51

Forwards Resolution dated 22 11 50 of the municipal council on the subject

---

The unit in the Schedule to the Mysore city Municipalities Act 1933 prescribing the maximum rates for the levy of octroi is expressed in terms of tolas. Hence the acceptance of the change proposed involves an amendment of the Act. It therefore requires to be considered whether the proposed change is productive of any real advantage to justify such an amendment.

2) The present system has been in vogue from a very long time. The Mysore city Municipality has adopted the existing unit without complaining of any such difficulty and the erstwhile B'lore city Municipality followed it for quite a long time.

3) The conversion from tolas to the Railway maund is quite easy and more accurate. The equivalent of 3 local

4.70/me

Treating 3 local maunds as equal to 1 Ry md for purposes of octroi in Davangere only the capacity maunds to one Railway (Bengal) maund may only be a nearest approximation but is not accurate. In the light of these facts the proposal may not be quite acceptable.

Treating 3 local maunds of Jaggery to one Railway md for levy of octroi in Davangere City Municipality

---

From

The Municipal Council, Dvg City Mty
No HC 2/51 52 Dt 3/4-3-1952
furnishes the information called for

9) According to the rate sanctioned under the Octroi Byelaws of the Davangere City Municipality, octroi on jaggery is to be collected at 6 pies per maund of 960 tolas This is the unit expressed for octroi duty on jaggery in Schedule II of the Mysore City Municipalities Act also

10) Jaggery is also being imported into Davangere City ~~also~~ by rail To facilitate recovery of octroi on rail borne jaggery with reference to the Railway Receipt in which the weight of the goods are expressed in Railway or Bengal maunds, the equation of one Railway maund of jaggery to three local maunds for purposes of octroi was thought of

11) This subject came up before the Davangere City Municipal Council on 23-11-50 and it was resolved that for facility of calcuation, octroi duty on one Railway maund of jaggery be treated as equivalent to octroi duty on 3 local maunds of jaggery

12) One Railway maund is equivalent to 82 2/7ths lbs The equivalent of one local maund may be assumed at 24 lbs according to the prevailing general convention Hence there is a good case for equating 1 Ry md to at least 3½ local maunds The Commissioner, Davangere City

9290/ml

Treating 3 Local maunds of Jaggery as equivalent to 1 Railway maund for levy of octroi in Davangere City Municipality

---

City Municipality, was therefore asked why 1 Ry md should not be equated to 3½ local maunds in the interest of the municipal revenues instead of to 3 local maunds as proposed by the Council The proposal is now modified to equate 1 Ry md to 3¼ local maunds

13) The purpose of this equating is for calculating octroi on jaggery For this to be effective and legal, such a condition has to be incorporated in the octroi bye-law itself For an amendment of the byelaw, objections and suggestions from the public have to be called for When objections from the public are called for, the suggestions which the interests concerned will offer, would be of immeasurable help in arriving at a weighed decision in the matter of equating the quantity also both for the Municipal Council and the Government

14) It is therefore for orders if the Commissioner, Davangere City Municipality, may be asked to send up regular proposals for amending the octroi byelaws to incorporate this weight equivalent for jaggery as a condition therein after going through the necessary formalities prescribed in section 51(b) of the City Municipalities Act, such as calling for objections etc , for the consideration of Government

8/4/53

8/4/53

15) Ref para 6

16) The Muni Cl will be requested to propose a regular amendment of the bye-laws in respect not only jaggery, but also in respect of other such articles where the same difficulty arises

SUBJECT Proposal of the Davangere City Municipal Council for treating one Railway Maund of Jaggery to be equivalent to three local Maunds for purpose of Recovering Octroi Duty

====

I write to state that in accordance with the sanctioned rates of the Octroi Byelaws of this City Municipality (vide G O No L3126-8 Ml 86-48-24 dated 23rd September 1948) Octroi duty on Jaggery is being collected at Rs 0-0-6 per Maund of 960 tolas

Sri Maganoor Basappa, Municipal Councillor brought a subject before the Municipal Council in the matter of making - arrangements to recover Octroi duty on Jaggery to be imported through Railways-treating that one Railway Maund of Jaggery to be equivalent to three local maunds for purpose of facilitating the calculation of Octroi Duty leviable thereon

The subject was considered by the Municipal Council at its meeting held on 22/23-11-1950 and it was resolved that for purposes of facilitating calculations easily, that, Octroi duty on one Railway Maund be treated to be equivalent to three local Maunds and that duty be recovered accordingly

A copy of the resolution is herein enclosed for favour of reference

I am to state in this connection that it is reported by the Revenue Officer of this Municipality that from the details

P T O

worked out by him in regard to the giving effect to the Municipal resolution referred to above, there would be loss of Revenue of 2 pies (two pies) for each of the three maunds, in view of the reason that one Railway Maund of 80lbs will be equivalent to three local maunds of 72 lbs and that there would be net loss of shortage of two pies for each weight of such 3 maunds

It looks as though previous sanction of Government is required to give effect to the aforesaid resolution of the Municipal Council

I request you, therefore, to kindly obtain early orders of Government in the matter of giving effect to the resolution dated 22/23-11-1950, passed by the Municipal Council

Forwarded

President,
City Municipal Council,
Davangere

Yours faithfully,

11/4

Municipal Commissioner,
Davangere City Municipality

Sir

With Reference to your letter no MC 2/51 52 dated 11 4 51 on the above subject I am directed to state that a Railway maund is equivalent to 82 2/7 lbs. Assuming the local maund at 24 lbs there is a good case for equating 1 Ry maund to at least 3 1/2 local maunds I am therefore to enquire why this cannot be done in the interest of municipal Revenue. The views of the municipal Council may also be obtained and furnished early

Yours faithfully
